SEVEN STEPS FROM START TO FINISH

Over the past 30 years, condominiums have transformed the skyline of every major city in the world.

That experience inspired a group of condominium specialists to document the best practices, insights and methods instrumental to their success. The result is the Condo: Start to Finish™ Process, a seven-step process that spans the full scope of professional disciplines involved in the development of a condominium project.

Our goal is to help condominium developers succeed. We hope this information will provide you with the framework for success in your next project.
